

With You

By K. Brendi Poppel

Going within, I find You there,
Let me begin by saying a prayer...
For guidance and wisdom, inner peace and calm,
Your healing, holy energy is the perfect balm ...
You soothe and satisfy the hunger in me,
When I go within I am certain to see ...
A clear road ahead beckoning me on,
As I turn to you, my worries are all gone ...
Quiet and still, might your light descend,
That I might follow faithfully to the never end ...
I travel the road, giving you the heavy load,
Ascending, ever upward to glorious new heights,
As the soul deep within me dances and delights ...
To fly higher each day, only God knows the way,
And I say okay! I'm along for the ride,
I will journey onward and forever reside –
With You.
