

The Supreme

By K. Brendi Poppel

The Supreme is the substance of soul survival
Experience is the essence of ascension
God's kingdom expands with each new arrival
Our presence provides another dimension...
To God the Supreme

As we each fulfill
The promise of a dream
By doing His will...
As each one adds to the actual
Souls are spiritualized
Potentials become factual

And the Supreme is realized...
As the embodiment and epitome of creature evolution
The culminating consequence, the finite conclusion
Yet ever expanding as we add to the story
God growing greater as we join in His glory...
